

02-18 Introduction to Research Data Management

Organizer: [Graduate School Graubünden](#)

LECTURERS	Prof. Dr. Niklaus Stettler, Prof. Bruno Wenk, University of Applied Sciences HTW Chur
DATES	Tuesday, February 13, 2018
TIME	17:00-18:30
LOCATION	SIAF, Seminar room, Obere Strasse 22, 7270 Davos Platz
LANGUAGE	English
LECTURE DESCRIPTION	<p>The research landscape is changing. Digital technologies support strategies and procedures for open science with the aim of making research processes and their results openly accessible and usable. The results of research projects are already increasingly being published in open access journals. The underlying data, on the other hand, is usually not accessible. They are not available for subsequent use in other projects, and often the results of research projects cannot be reproduced without access to the data, or only incompletely.</p> <p>Research data management serves to consciously design the systematic handling of research data, from planning, recording and processing to publication (e. g. in a data paper or on a repository) and digital long-term archiving.</p> <p>It is becoming more and more common for research funding institutions to support researchers in implementing such processes; for example, the Swiss National Science Foundation has been demanding a data management plan (DMP) as an integral part of applications since October 2017.</p> <p>See also: SUK-P2 project "Train2Dacar" (Train the Trainer for Data Curation in Advanced Research) http://www.researchdatamanagement.ch</p> <p>In this lecture we will discuss:</p> <ul style="list-style-type: none"> • Re-Using Open Data (repositories, data papers) • Data Lifecycle Management • Data Management Plan
TARGET AUDIENCE	Researchers
MAX. PARTICIPANTS	40
CONTACT	Course coordinator: Daniela Heinen, daniela.heinen@graduateschool.ch , phone 081 410 60 80
REGISTRATION	Sign up here . You will receive a confirmation e-mail within a few days after your registration. Registration closes February 9, 2018. The Graduate School Graubünden offers this lecture free of charge.
CANCELLATION POLICY	Please see our Terms of Participation for details. (Terms in German)
